STATISTICAL TABLES

Data for School Districts 22

Data for Counties, Development Regions, and the State 44

Data for ECSU Regions 48

Data for Enrollment Size Groups 50

Summary Statistics 52

For the sixteenth consecutive year the Minnesota Department of Education is producing a publication containing comparable enrollment, staff and financial data for each Minnesota school district. And, in spite of some changes during this period, it is still largely possible to make reasonably meaningful inter-year comparisons. However, in recent years a number of our users have been lobbying us for a new, expanded publication. Therefore, a revised format is being developed for field testing and may supplant the current one in the next few years.

Evaluation of Contents

This edition of Profiles follows the same format as in other recent years. The first ten pages describe the report and provide a commentary and analysis of some of the more interesting trends. Definitions of the 38 statistical items are contained on pages 13 through 18. Pages 19 through 21 contain an alphabetical list of all school districts, their identification number, and development region. Also included is a state map showing development regions and their constituent counties.

The statistical pages begin on page 22. Pages 22 through 43 contain statistics for individual school districts, pages 44 through 48 for counties and development regions, pages 48 and 49 for ECSU regions, and pages 50 and 51 for districts aggregated by enrollment size. Pages 52 and 53 contain percentiles and high and low values for each of the 38 statistics.

Notes on Financial Data

The expenditure and revenue data reported in Profiles is derived from UFARS (Uniform Financial Accounting and Reporting Standards), a system utilized by all Minnesota school districts. These data are directly comparable to that reported in the previous five editions of Profiles and are described briefly in Table 1.

Interdistrict Cooperation

The 1979 and 1983 Minnesota legislatures enacted laws to encourage school districts to cooperate in providing education services to their students. Prior to 1979, all school districts were required to provide a complete program for every grade - prekindergarten through 12. The new legislation recognized that

smaller districts could effect economies of scale if they were allowed to cooperate in providing educational services. There is now flexibility in how the districts may cooperate. For example, in one not uncommon scenario, students from two districts will attend one of the districts for elementary grades and the other for secondary grades. Staff from the paired districts will teach at the grade level of their certification.

Districts participating in one of these agreements are noted in the report tables by either an ICA (Interdistrict Cooperative Agreement) or ASE (Agreement for Secondary Education) in parenthesis after the district name. In 1987-88 these districts were:

#57 Beardsley
#801 Browns Valley

#58 Clinton
#60 Graceville

#70 Lake Crystal
#78 Garden City

#72 Mapleton
#79 Amboy-Good Thunder

#209 Kensington
#265 Hoffman

#217 Bricelyn
#222 Kiester

#242 Alden
#244 Freeborn

#225 Winnebago
#240 Blue Earth
#458 Truman

#260 Zumbrota
#809 Mazeppa

#262 Barrett
#263 Elbow Lake

#325 Lakefield
#330 Heron Lake

#328 Sioux Valley
#513 Brewster
#516 Round Lake

#341 Atwater
#464 Grove City

#409 Tyler
#418 Russell
#584 Ruthton

#413 Marshall
#415 Lynd

#424 Lester Prairie
#427 Winsted
#880 Howard Lake

#524 Halsted
#525 Hendrum

#566 Askov
#576 Sandstone

#593 Crookston
#597 Erskine
#599 Fertile
#603 McIntosh
#604 Mentor
#630 Red Lake Falls

#633 Lamberton
#638 Sanborn

#636 Morgan
#650 Franklin

#637 Redwood Falls
#652 Morton

#647 Buffalo Lake
#651 Hector

#649 Fairfax
#733 Gibbon
#735 Winthrop

#654 Renville
#655 Sacred Heart

#669 Magnolia
#670 Luverne
#697 Eveleth
#699 Gilbert

#893 Echo
#896 Wood Lake

Caution should be exercised when comparing data, especially financial data, of the cooperating districts with that from districts not involved in such agreements; interdistrict financial transfers, in the UFARS system, do not effectively relate costs to pupils served in many of these situations.

This is the fourth consecutive year in which the main statistical tables include data on Minnesota's two elementary-only districts (Nett Lake #707 and Winsted #427), the two districts who send all of their students to other districts (Franconia #323 and Prinsburg #815) and the Pine Point experimental district #025.

For More Information

Additional copies of School District Profiles, 1987-88 may be purchased from Minnesota's Bookstore, Print Communications Division, at 117 University Avenue, St. Paul, Minnesota 55155 (telephone 612/297-3000); or toll free in outstate Minnesota 1-800-652-9747.

If you have comments or questions concerning information in this report, or would like further information on related topics, please contact:

TABLE 1

Sources of Expenditure Data for School District Profiles

This table is intended primarily for persons who are familiar with UFARS, and who wish to examine or verify the expenditure data for a specific school district.

Each of the 16 expenditure categories in Profiles includes all expenditures within a defined set of funds, programs, and objects, as defined in the upper section of the table below.

The lower section of the table summarizes the funds, major program categories, and object categories used for profiles.

For a further explanation of UFARS, and for definitions of specific funds, programs, and objects, see: Minnesota Department of Education, Manual for the Uniform Financial Accounting and Reporting System for Minnesota Schools.

Categories Used in the Report	Funds[1]	Programs[2]	Objects[3]
18. District and school administration	1 and 9	1-99	
19. District support services	1 and 9	100-199	
20. Regular instruction	1 and 9	200-299	
21. Vocational instruction	1 and 9	300-399	
22. Exceptional instruction	1 and 9	400-499	All objects
23. Instructional support services	1 and 9	600-699	except 500-599
24. Pupil support services	1 and 9	700-799	and 910
25. Operations and maintenance	1 and 9	800-899	
26. Food service	2	All	
27. Pupil transportation	3	All	
28. Other operating programs	1 and 9	0, 500-599, and 900-999	
29. Total PK-12 operating expenditures (this is the total of categories 18 through 28)	1,2,3, & 9	All	
30. Community service	4	All	
31. Capital outlay	5	All	All but 910 and 460[4]
	1,2,3, & 4	All	500-599
32. Building construction	6	All	All but 910
33. Debt service	7	All	All but 910

[1] Funds

1. General
2. Food Service
3. Pupil Transportation
4. Community Service
5. Capital Expenditure
6. Building Construction
7. Debt Service
9. Trust and Agency

[2] Major program Categories

0	Districtwide (no specific program)
1-99	District and school administration
100-199	District support services
200-299	Regular instruction
300-399	Vocational instruction
400-499	Exceptional instruction
500-599	Community Services
600-699	Instructional support services
700-799	Pupil support services
800-899	Sites, buildings, and equipment
900-999	Other programs

[3] Objects

460	Textbooks
500-599	Capital expenditures
910	Transfers to other funds

[4] 460, textbook expenditures have been allocated, based on program code, into categories 18-28 to assure valid inter-year comparisons.

TRENDS & PATTERNS

This section examines a number of the more interesting facts contained in the statistical tables beginning on page 22.

Number of Students

Average daily membership continued the growth which began in the 1985-86 school year, increasing 7,796 or 1.1 percent between 1987 and 1988 (from 708,509 to 716,305) - see Figure 1. This growth occurred at every level except secondary, where the size of the exiting classes are still larger than those entering. The enrollment increase is the result of a number of causes, the most important of which is the increase in births which began in the late '70s (see Figure 2). Movements from nonpublic to public schools and changes in net migration have also had an influence.

Table 2 shows the great diversity of district enrollment sizes within the state. The largest ten percent of the state's districts enroll better than one half of all pupils; the smallest ten percent, only approximately one percent.

Table 2

1987-88 Resident Average Daily Membership (ADM) for Ten Enrollment Size Groups

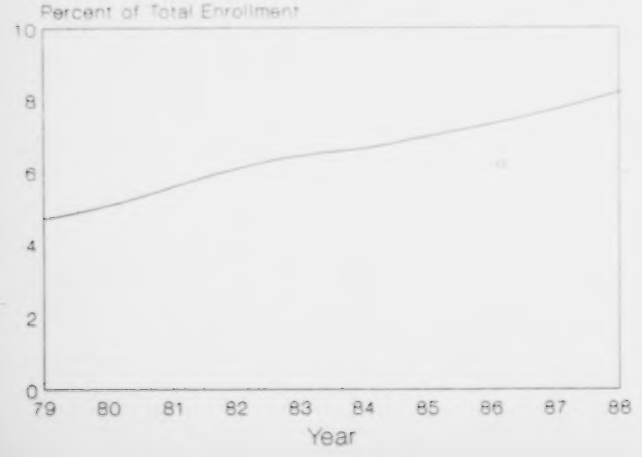
Group Number	Size Range (1987-88 Resident ADM)	Number of Districts	Total Resident ADM	Percent of State Total
1.	0 to 209 students	45	7,216	1.0
2.	210 to 289 students	43	10,433	1.5
3.	290 to 369 students	44	14,565	2.0
4.	370 to 464 students	45	19,004	2.6
5.	465 to 629 students	44	24,564	3.4
6.	630 to 849 students	43	31,587	4.4
7.	850 to 1,199 students	44	43,809	6.1
8.	1,200 to 1,799 students	43	62,015	8.7
9.	1,800 to 3,849 students	43	114,324	16.0
10.	3,850 or more students	42	388,788	54.3
	State Totals	436	716,305	100.0

Figure 1

Minnesota Public Enrollment
1973 - 1988

Figure 2

Percent Minority Enrollments
1978-79 thru 1987-88



Percent Minority

Few characteristics have changed as dramatically as the minority growth of Minnesota's enrollments as shown in Figure 3. Although all of the minority groups increased vis-a-vis the white majority, the growth in Asians has been particularly dramatic in Minnesota (see Table 3). The migration from Southeast Asia has pushed the Asian enrollment percentage up five-fold. They now are the second largest minority enrollment group in Minnesota.

Table 3

Percent Minority Enrollment*

	Indian	Black	Asian	Hispanic	Total
1978-79	1.5%	1.8%	0.7%	0.7%	4.7%
1979-80	1.5	1.9	0.9	0.7	5.0
1980-81	1.4	2.0	1.4	0.7	5.6
1981-82	1.5	2.1	1.8	0.7	6.1
1982-83	1.5	2.3	1.9	0.8	6.5
1983-84	1.6	2.3	1.9	0.8	6.6
1984-85	1.6	2.5	2.1	0.8	7.0
1985-86	1.6	2.7	2.2	0.8	7.3
1986-87	1.6	2.8	2.4	0.9	7.7
1987-88	1.7	2.9	2.6	1.0	8.2

*based on enrollment on October 1 of school year

Percent Minority Enrollments
1978-79 thru 1987-88

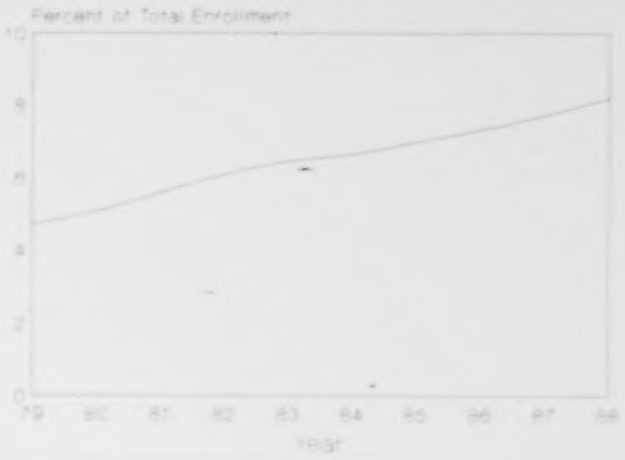

Table 4

State Totals of Professional Staff and Pupil-Staff Ratios
1978-79 through 1987-88

School Year	Total Professional Staff	Pupil Staff Ratio
1978-79	49,723	16.2
1979-80	49,391	15.7
1980-81	49,444	15.2
1981-82	48,236	15.1
1982-83	44,553	16.0
1983-84	44,044	15.9
1984-85	44,744	15.5
1985-86	45,789	15.2
1986-87	46,425	15.2
1987-88	47,031	15.2

Professional Staff

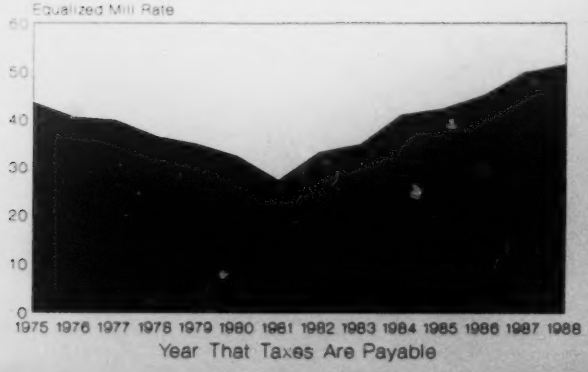
Table 4 shows total professional staff and pupil-staff ratios for the past decade. The number of professional staff continues the growth which began after the "budget crunch" years of 1982-83 and 1983-84. The relative stability of the pupil staff ratio continued; the 1987-88 ratio of 15.2 is the same as in the 1986-87 school year.

Tax Rates

School district tax rates continued the growth which began in 1981. This tax rate is 1.7 equalized mills (3.4 percent) greater for 1988-89 than for 1987-88 (see Figure 4). This increase is the result of growth in the mandated components of the levy plus a 24% increase in voter-approved referendum levies.

Figure 4

School Tax Rates in Equalized Mills
1975 thru 1988



Sources of Revenue

Figure 5 shows the proportion of school district funds received from federal, state and local sources during the past eight years. In 1987-88, as in most other recent years, the state was the primary source of school district funds (54%). Local sources were second (42%) and federal funds a modest 4 percent. A noteworthy anomaly in the trend occurred in 1982-83 when the state "budget crunch" resulted in fewer state funds.

Operating Expenditures

Total operating expenditures per pupil unit grew from $3,485 in 1986-87 to $3,684 in 1987-88 - a 5.7 percent increase. Figure 6 shows how these expenditures vary on a percentile/quartile basis. Districts in the 10th percentile expend 85 percent or less than the state average while districts in the 90th percentile expended at least 12 percent more than the state average. Table 5 shows the 1986-87 and 1987-88 operating expenditures broken down into four sub-categories. Instruction constitutes the largest portion of operating expenditures.

Figure 5

School District Sources of Revenue
1981 thur 1988

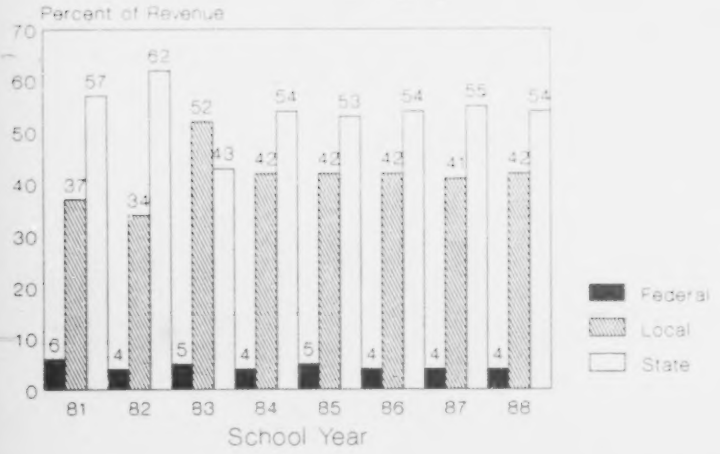


Figure 6

PK-12 Operating Expenditures
Per Pupil Unit

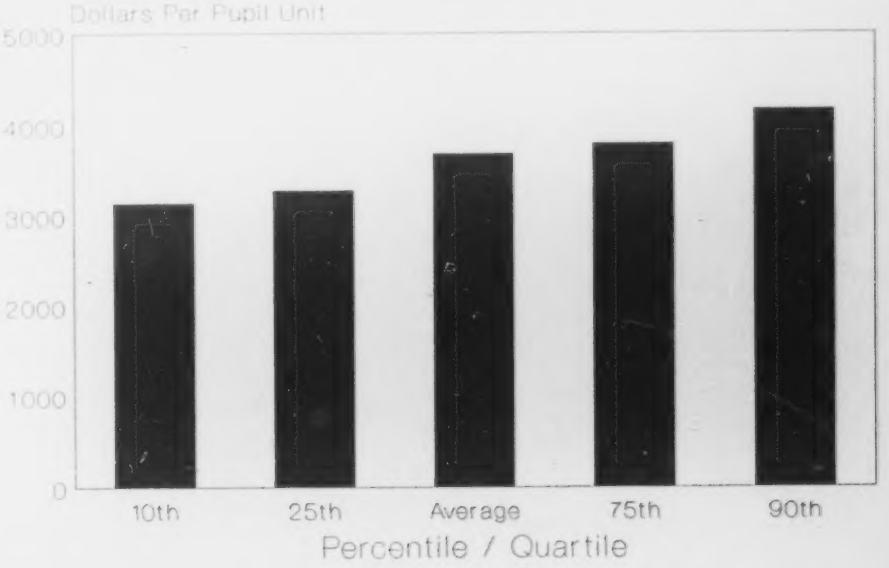

Table 5

State Averages of PK-12 Operating Expenditures per Pupil Unit, 1986-87 and 1987-88

	Category	1986-87 Expenditures	1986-87 % of Total	1987-88 Expenditures	1987-88 % of Total
18.	District and school administration	$ 202	5.8	$ 213	5.8
19.	District support services	84	2.4	91	2.5
	Subtotal, Administration	$ 286	8.2	$ 304	8.3
20.	Regular instruction	$1537	44.1	$1618	43.9
21.	Vocational instruction	80	2.3	83	2.2
22.	Exceptional instruction	396	11.4	440	11.9
23.	Instructional support services	123	3.5	133	3.6
	Subtotal, Instruction	$2136	61.3	$2274	61.6
24.	Pupil support services	$ 87	2.5	$ 94	2.6
26.	Food service	150	4.3	155	4.2
27.	Pupil transportation	218	6.3	$ 224	6.1
	Subtotal, Other student services	$ 455	13.1	$ 473	12.9
25.	Operations and maintenance	$ 287	8.2	$ 306	8.3
28.	Other operating programs	$ 321	9.2	$ 327	8.9
	Total PK-12 operating expenditures	**$3485**	**100.0**	**$3684**	**100.0**

Nonoperating Expenditures

Capital Outlay, Building Construction, and Debt Service, (Columns 31, 32 and 33, respectively) are termed nonoperating expenditures. Figure 7 shows the growth/decline in these expenditures, per pupil unit, over the past decade. Since 1982-83, expenditures have increased significantly--including last year's 11.3 percent gain (from $476 to $530 per pupil unit).

Community Service

The growth in Community Service expenditures continued its dramatic increase as shown in Figure 8. A goodly proportion of the recent growth has been the result of legislative initiatives which went beyond Community Service's traditional endeavors in recreational and enrichment education. These initiatives are in Early Childhood Family Education and Youth Development Programs. The Early Childhood and Family Education Program began statewide in 1985-86 and grew from 29 districts in 1984-85 to 290 in 1987-88. The Youth Development Program began in the 1987-88 school year and included 187 school districts.

Figure 7

Nonoperating Expenditures
Per Pupil Unit, 1980-81 thru 1987-88

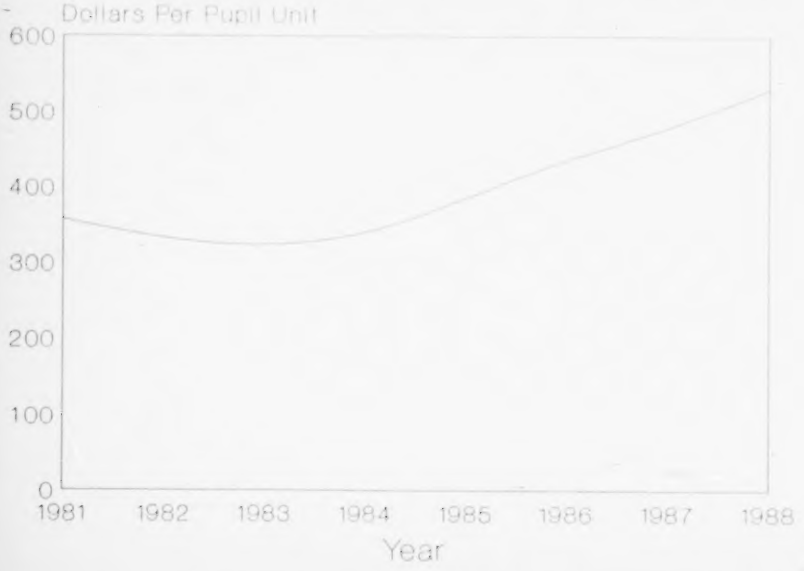

Figure 8

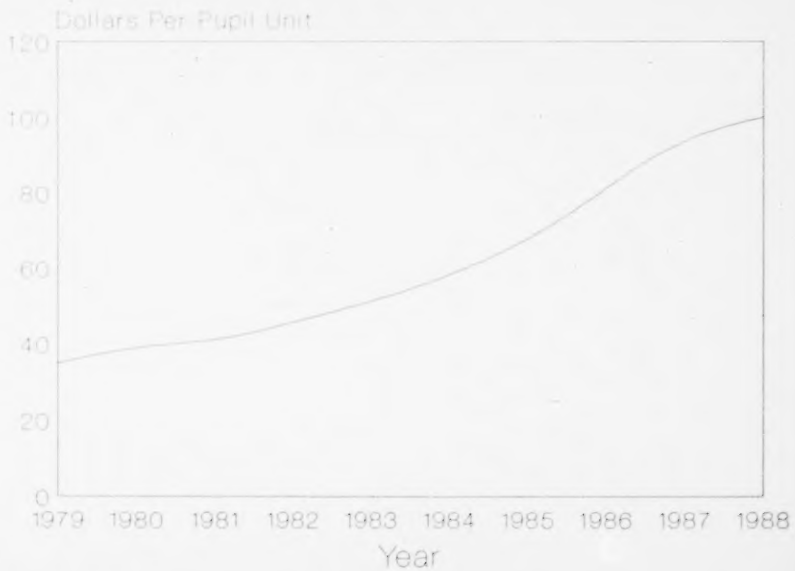
Community Service Expenditures
Per Pupil Unit, 1978-79 thru 1987-88

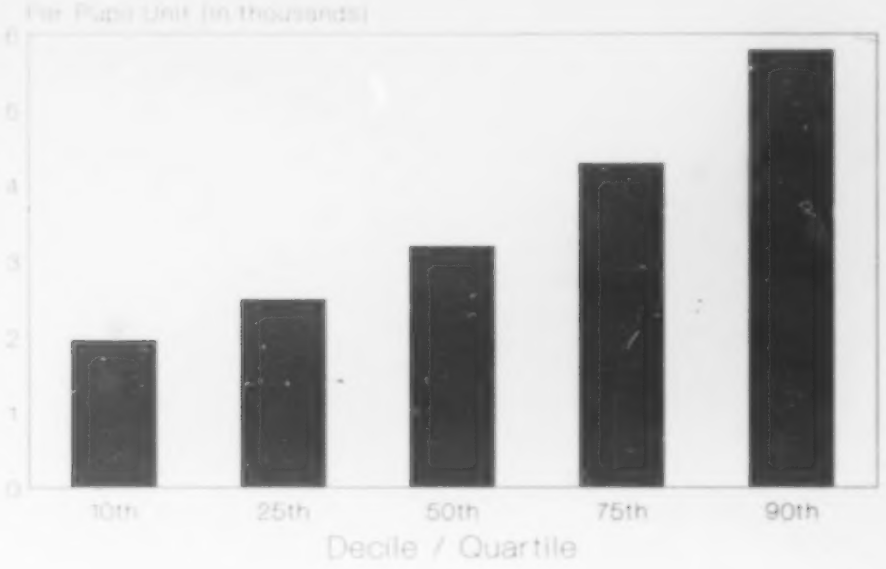


1987 Adjusted Gross Tax Capacity

Figure 9 illustrates the variation in 1987 adjusted gross tax capacity of Minnesota school districts. It indicates that there is a significant difference in the ability of Minnesota school districts to produce property tax revenue by levying an equal number of mills. The state's 90th percentile district has roughly three times the property tax capacity per pupil unit of the 10th percentile district.

Figure 9

1987 Adjusted Gross Tax Capacity
of School Districts; Deciles/Quartiles



Operating Funds Balance

Figure 10 shows the state average Operating Funds Balance for the years 1980-81 through 1987-88. There has been no consistent pattern of growth or decline. A modest increase occurred from 1986-87 to 1987-88 (from $335 to $343 per pupil unit).

Figure 10

Average Operating Funds Balance
1980-81 thru 1987-88

DEFINITIONS

The tables on pages 22 through 43 contain 38 separate statistics for each school district, county, and region in the state. Definitions of these 38 statistics are given below. All data are for the 1987-88 school year.

1987-88 Resident Average Daily Membership

Average daily membership (ADM) is the average number of pupils in membership during the school year. Pupils need not be in attendance to be counted in ADM, but they must be in membership (i.e., currently enrolled in the district). For example, a pupil who is enrolled for the entire school year counts as 1.0 ADM; a pupil who is enrolled for exactly half the school year counts as 0.5 ADM.

The ADM counts in this report are, more specifically, counts of total resident ADM including all residents who are, a) enrolled in their home district, b) educated in another district to whom tuition is paid, or c) attending another district under the Enrollment Options law. Resident ADM counts are used in calculating foundation aid payments and property tax levy limitations. Resident membership includes:

1. **Prekindergarten Handicapped** -- ADM of prekindergarten students enrolled in special education programs.
2. **Kindergarten** -- ADM of students enrolled in kindergarten classes.
3. **Elementary, Grades 1-6** -- ADM of students enrolled in grades 1-6, including students in elementary-level ungraded and special education classes.
4. **Secondary, Grades 7-12** -- ADM of students enrolled in grades 7-12, including students in secondary-level ungraded and special education classes.
5. **Total** -- Total ADM of all district residents, prekindergarten through grade 12; this is the total of columns 1 through 4.

Pupil Data

6. **Percent Minority** -- The percentage of the district's students who are of American Indian, Alaskan, Black, Asian, or Hispanic ancestry.
7. **Percent Attendance** -- The average ratio of days attended to days enrolled, for all students in the district.
8. **Percent Transported** -- The number of resident public school students transported to and from school twenty or more days, as a percentage of the district's resident pupils.

Professional Staff

These statistics provide information about each district's professional staff. Staff are counted in full-time equivalents (FTE). For example, a full-time staff member is counted as 1.0 FTE; one employed only half-time is counted as 0.5 FTE. Staff counts include only elementary-secondary personnel; postsecondary personnel are excluded.

9. **Total Staff FTE** -- The total number of licensed professional staff employed by the district, measured in full time equivalents (FTE). This count includes administrators, classroom teachers, and all other licensed professional personnel.
10. **Pupil Staff Ratio** -- The average daily membership of all students (both residents and nonresidents) who were enrolled in the

school district, divided by the number of professional staff (column 9).

Tax Rates

These figures show the tax rates, expressed in mills, for school district property taxes payable in 1988. Taxes payable in 1988 provide revenue for the 1988-89 school year.

11. **Auditor Mills** -- The actual school district tax rate, as determined by the county auditor. If the auditor tax rate is 50 mills, then a property owner would be taxed $50 for each $1,000 of assessed value. Because of differences in local property assessment practices, comparisons of auditor tax rates among districts may not be meaningful.
12. **Equalized Mills**[3] -- This tax rate is computed by multiplying the district's auditor tax rate times the 1987 weighted sales ratio. The sales ratio is the ratio of the market value as determined by local assessors, to the actual selling price of the property. The sales ratio for state assessed property, such as utilities and mineral, is 1.00.

Sales ratios are compiled by the Minnesota Department of Revenue EARC Sales Ratio Unit.

Equalized tax rates are computed to compensate for differences in assessment practices. Thus, when comparing the level of gross tax burden in various districts, these rates provide a better comparison than auditor tax rates.

Pupil Units (Weighted ADM)

13. **Resident Pupil Units** -- This figure is computed by applying weightings to the district's resident average daily membership as defined in the paragraphs 1987-88 Resident Average Daily Membership, above. Each kindergarten ADM counts as 0.5 pupil units; each prekindergarten, kindergarten handicapped, and elementary ADM counts as 1.0 pupil unit; and each secondary ADM counts as 1.4 pupil units. Resident pupil units are used in calculating the district's state foundation aid payments and property tax levy limitations.
14. **Total Pupil Units** -- This figure differs from the resident pupil units (column 13) as follows: a) it includes pupils who reside in other districts but are enrolled in this district,[4] b) it includes nonpublic school pupils who attend the public school district part-time for specific classes or services, c) it includes Enrollment Options pupils attending from nonresident districts, but d) it excludes resident pupils who attend other districts under the Enrollment Options law.

Revenue Percentages

These three columns show the percentage of each district's revenues from the federal government, the state government, and local and other sources. The percentages are based on all 1987-88 revenue reported by each district, except for proceeds from sales of real property and equipment, insurance recoveries, sales of bonds, loans, interfund transfers, and nonpublic flow thru revenue.

15. **Federal** -- The percentage of revenues from the federal government, whether paid directly or through another governmental unit.
16. **State** -- The percentage of revenues from the Minnesota State government, including foundation aid, property tax credits that are paid to the school district, and all other state payments to school districts.
17. **Local and Other** -- The percentage of revenues from local and other sources. This category includes revenues from property taxes, interest, rent, gifts, tuition and fees, sales of assets other than real property and equipment, payments from other school districts, and all other sources except for federal and state government.

1987-88 Expenditures Per Pupil Unit

Columns 18 through 33 show each district's 1987-88 expenditures in sixteen different categories, divided by total pupils units (column 14). Columns 18 through 30 include all expenditures for the indicated purpose, except capital expenditures.

18. **District and School Administration** -- Expenditures for the school board and for the office of the superintendent, principals, and any other line administrators who supervise staff.
19. **District Support Services** -- Expenditures for central office administration which are not directly related to instruction, pupil support (see #24), or community services (see #30). Examples include expenditures for business services, data processing, legal services, personnel office, printing, and the school census.
20. **Regular Instruction** -- Expenditures for elementary and secondary classroom instruction, not including vocational instruction (#21) and exceptional instruction (#22), and for cocurricular and extracurricular activities. Examples include salaries of teachers, classroom aides, and coaches, and expenditures for classroom supplies and textbooks.
21. **Vocational Instruction** -- Expenditures in secondary schools for instruction that is related to job skills and career exploration. Examples include expenditures for home economics, industrial, business, agriculture, and distributive education.
22. **Exceptional Instruction** -- Expenditures for instruction of students who, because of atypical characteristics or conditions, are provided educational programs that are different from regular instructional programs. Examples include expenditures for special instruction of students who are emotionally or psychologically handicapped, gifted and talented, or mentally retarded; for students with physical, hearing, speech, and visual impairments; and for students with special learning and behavior problems.
23. **Instructional Support Services** -- Expenditures for

activities intended to help teachers provide instruction, not including expenditures for principals or superintendents. Examples include expenditures for assistant principals, curriculum development, libraries, media centers, audio-visual support, staff development, and computer assisted instruction.

24. **Pupil Support Services** -- Expenditures for all non-instructional services provided to students, not including transportation and food. Examples include expenditures for counseling, guidance, health services, psychological services, and attendance and social work services.
25. **Operations and Maintenance** -- Expenditures for operation, maintenance, and repair of the district's buildings, grounds, and equipment. Examples include expenditures for custodians, fuel for buildings, electricity, telephones, and repairs.
26. **Food Service** -- Expenditures for the preparation and serving of meals and snacks to students.
27. **Pupil Transportation** -- Expenditures for transportation of students, including salaries, contracted services, fuel for buses, and other expenditures.
28. **Other Operating Programs**[5] -- Includes all operating expenditures that were not charged to any other category (columns 18-27).
29. **Total PK-12 Operating Expenditures** -- The total of the eleven preceding categories of expenditures (columns 18 through 28).

    This figure includes all expenditures incurred for the benefit of elementary and secondary education during the 1987-88 school year, except capital and debt service expenditures.
30. **Community Service** -- Expenditures for recreation, civic activities, adult education, early childhood education, or similar programs which are not conducted primarily for elementary and secondary students, and for noncredit summer school programs.
31. **Capital Outlay** -- All expenditures for acquisition or replacement of assets that have benefits for more than one year, except expenditures for construction of new buildings and additions (see #32). Includes expenditures for purchase of land and equipment, for remodeling and improvements to existing buildings, and for leasing of equipment and buildings.
32. **Building Construction** -- Expenditures for construction of new buildings and additions, including payments to contractors, costs of advertising for contracts, architects' and engineers' fees, costs of equipping new buildings, and all other related costs.
33. **Debt Service** -- Expenditures for repayment of long term debt (see #37), including payments of principal and interest on bonds and state loans.

Other Measures Per Pupil Unit

34. **Operating Funds Balance** -- This figure is a measure of the district's financial condition at the end of the 1987-88 school year, and of how much resources are available to be used in future years. It is equal to the sum of the unappropriated balances on June 30, 1988, from the four operating funds (general, food service, pupil transportation, and community service funds), excluding the amount of statutory operating debt, plus the appropriated fund balance for current use of taconite payments; this balance is then divided by 1987-88 resident pupil units (column 13).
35. **Change in Funds Balance** -- The difference between the district's operating funds balance on June 30, 1988 (see #34 above) and on June 30, 1987, divided by 1987-88 resident pupil units. This is essentially equal to the difference between the district's 1987-88 revenues and expenditures, for the four operating funds combined. Thus, a negative number indicates that the district's expenditures in the operating funds were greater than its revenues.
36. **State and Local Operating Costs** -- This figure, also called adjusted maintenance cost, is often used to compare overall costs of education among districts. It is essentially the net cost per pupil unit of education that is financed through state and local funds. It is computed as follows:

    Sum of all expenditures for current operation of the schools
    (doesn't include expenditures for transportation, community services, capital outlay - excluding textbooks, building construction, or debt service),
    Minus all revenue from the federal government,
    Minus revenue from sale of food and materials,
    Minus admission fees and gate receipts from school activities;
    This total is then divided by 1987-88 total pupil units (column 14).
37. **Long Term Debt** -- The amount of long term debt outstanding on June 30, 1988, divided by 1987-88 resident pupil units. Long term debt includes bonds and capital and debt service and energy loans from the state.
38. **1987 Adjusted Gross Tax Capacity** -- The 1987 adjusted gross tax capacity of the district divided by 1987-88 resident pupil units. This figure is an indicator of the district's ability to raise revenue through local property taxes.

Footnotes, over

Footnotes

1 There are three exceptions to this general rule. The two tax rate statistics (columns 11 and 12) are for taxes payable in calendar year 1988; these taxes will provide revenue for the 1988-89 school year. The adjusted assessed value (column 38) is based on property values in 1987; this figure will be used in computing state aids and tax levy limitations for the 1989-90 school year.

2 For some school districts and some categories of students, the counts of students transported were estimated.

3 For districts in the Twin Cities area which are members of a special intermediate vocational-technical district (districts 287, 916, and 917), the EARC mill rate shown in column 12 includes a small additional tax rate for the special intermediate district.

4 In computing total pupil units, students who are residents of one school district but attend school in another district are counted in both districts, if the resident district pays tuition to the district attended. In 1987-88 there were 14,200 students (15,800 pupil units) in this category. Thus the state total of pupil units in column 14 of this report includes some double counting. This measure of pupil units is used because it provides the most valid comparison with expenditures. If these students were counted only in their resident district or only in the district attended, the expenditures per pupil unit would be inaccurate in the other district.

5 Most school districts included all expenditures for employee benefits in the same UFARS programs as the employees' salaries. Thus, for example, health insurance for the superintendent is included with "district and school administration" (column 18), and benefits for teachers are included with instructional programs (columns 20, 21 and 22). Other districts incorrectly reported all expenditures for employee benefits separately; for these districts, the expenditures show up in "other operating programs" (column 28). Because of this difference in accounting practices there is significant variation in the amounts reported in column 28.

The figures listed on the next six pages are, for each county, totals for all school districts which have their central offices in the county. Totals are also listed for the state's thirteen development regions and for the entire state. Counties are listed by region, with the regions in numerical order.

	Revenue %			1987 - 88 Expenditures per Pupil Unit															Other Measures per Pupil Unit

The boundaries of the ECSU regions are the same as the boundaries of the development regions, with the following exceptions: ECSU region 1 contains development region 1 and 2, ECSU region 6 contains development region 6E, 6W and 8, and ECSU region 7 contains development regions 7E and 7W.

DATA FOR ENROLLMENT SIZE GROUPS

The table below lists totals or averages for all districts in each of ten enrollment size groups, based on 1987-88 resident average daily membership (ADM). For example, group 1 includes all districts with 209 or fewer ADM, and group 2 includes all districts with 210 to 289 ADM. Each group includes approximately ten percent of the state's school districts (i.e., 42 to 45 districts).

		1987-88 Resident Average Daily Membership					Pupil Data			Professional Staff		Tax Rates		Pupil Units (Weighted ADM)

10	3850 OR HIGHER	1705	33,938	179,283	173,862	388,788	12.1	94.2	71	24,572	15.8	56.10	50.19	441,556	444,402

The chief purpose of this table is to permit easy comparisons of districts with similar enrollment. For example, a superintendent in a district with 500 pupils may want to examine the data for group 5 (465 to 629 ADM), to see how his/her expenditures compare with other districts that are of similar size.

SUMMARY STATISTICS

The table below lists a variety of summary statistics for each of the 38 variables included in this report. The attendant definitions explain the meaning of these statistics.

This table may be used to better understand the distribution of a particular variable among Minnesota school districts. For example, percent attendance (column 7) varies little among districts, from a low of 88.5 to a high of 97.3. Ninety percent of the school districts are within the narrow range of 93.7 (5th percentile) to 96.8 (95th percentile).

The table may also be used to see how an individual school district compares with other districts in the state. Two examples illustrate this use of the data.

1. A district which has total R-12 operating expenditures (column 29) of $3,500 per pupil unit is very near the median value, which is $3,498. Thus, about half the districts in the state have lower and half have higher expenditures.

2. A district with total average daily membership (column 5) of 300 students is between the 20th and 25th percentiles for this variable. Somewhere between 20 and 25 percent of Minnesota school districts have fewer students than this district.

		1987-88 Resident Average Daily Membership					Pupil Data			Professional Staff		Tax Rates		Pupil Units (Weighted ADM)	
		1. Pre-Kindergarten Handicapped	2. Kindergarten	3. Elementary (Grades 1-6)	4. Secondary (Grades 7-12)	5. Total (Pre-K thru Grade 12)	6. Percent Minority	7. Percent Attendance	8. Percent Transported	9. Total Staff (FTE)	10. Pupil-Staff Ratio	11. Auditor Mills	12. Equalized Mills	13. Resident Pupil Units	14. Total Pupil Units

Lowest Value - For any specific variable, the lowest value of that variable among all 436 school districts. The table also shows the highest value for each variable.

XXth percentile - For any specific variable, a value chosen such that XX percent of the school districts are below the chosen value. For example, the 10th percentile for total staff (column 9) is 19; this means that 10 percent of the school districts have 19 or fewer staff members (FTE). The 25th and 75th percentile are also called quartiles; the 10th, 20th, 30th, ...through 90th percentiles are also called deciles.

Median - For any specific variable, a value chosen such that half of the school districts are below the chosen value, and half are above.

State Total - For variables 1-5 (1987-88 resident average daily membership), 9 (total staff), and 13-14 (pupil units), the state total is simply the sum of the corresponding value for all 436 districts listed in the report. For all other variables, the state total is computed as the sum of the numerators for all districts, divided by the sum of the denominators. For example, State total pupil-staff ratio =

$$\frac{\text{State total of pupils}}{\text{State total of staff}}$$

For these variables, the state total is a form of weighted average.
